With a Bachelor of Vocation in Software Development and a Post Graduate Diploma in Data Analysis, I possess a foundation in both technical and analytical aspects of the field. I am seeking a role where I can apply my knowledge and expertise to drive innovation, solve problems, and deliver impactful solutions. My goal is to continuously learn and grow in a dynamic environment while making a significant contribution to the success of the organization.

PROJECTS

Food Recommendation website based on Calories | Dec 2023 – Present

This system is expected to recommend healthy food and delivery on the basis of calories.

Sentiment Analysis based on review classification | Jan 2021 – May 2022

[Project Link](#)

During my post-graduation diploma, I was given a case study involving a restaurant that wanted to implement a binary classification model to classify customer reviews on their Facebook page. The objective of this model was to help the restaurant's business by building an in-house customer support team. The team would reach out to customers who gave negative feedback to resolve their issues or complaints.

Heart Disease Analysis and Prediction | Jan 2021 – May 2022

[Project Link](#)

A heart disease prediction system to predict whether the patient is likely to be diagnosed with a heart disease or not using the medical history of the patient.

Personal Voice Assistant | Sep 2020 – Jan 2021

[Project Link](#)

The project aims to develop a personal-assistant draws its inspiration from virtual assistant like Siri for iOS. It has been designed to provide a user-friendly interface for carrying out a variety of day-to-day activities like searching queries in google, edge, youtube, writing email with the help of single voice command, searching for videos, live weather condition, reminding the user about the scheduled events and tasks, etc.

TECHNICAL SKILLS

Languages: Java, Python, C, C++, SQL, JavaScript, HTML, CSS

Developer Tools: Git, VS Code, Visual Studio, PyCharm, IntelliJ, Google Colab

Libraries: pandas, NumPy, Matplotlib

SOFT SKILLS

Ability to work in a team, Adaptability, Fast Learner, Time Management, Active Listening, Problem-solving

ACHIEVEMENTS

First Prize in Website Development	Certificate Link
Third prize in Graphic Designing	Certificate Link
Orientation Program on Computer Maintenance Certificate	Certificate Link
Orientation Program on Cisco Certified Network Associate an IT certification from Cisco Systems	Certificate Link
Appreciation from Humboldt State University California	Certificate Link
Second prize in Mandala Completion	Certificate Link
First Prize in Photography	Certificate Link
